

## 20TH INTERNATIONAL IGTE SYMPOSIUM 2022 19.9.-21.9.2022, GRAZ, AUSTRIA

Dear Colleague,

We are writing to you on behalf of the organizing committee of the **20th International IGTE Symposium on Computational Methods in Electromagnetics and Multiphysics** (IGTE'22), which will be held in Graz, Austria, on-site and online from September 19 to September 21, 2022. As in previous years the conference venue will be the Hotel Novapark.

Please find the [call for papers](#) on the website [igtesymp.tugraz.at](http://igtesymp.tugraz.at).

As part of IGTE'22, **special sessions (Minisymposia)** on the topics of **Magnetic Material Modeling** and **Data-Driven Surrogate Models** are planned. In addition, for the first time, a follow-up **PhD workshop** on these two topics will take place directly after IGTE'22.

It is already possible to [create a user account](#) in our conference management system ConfTool. I strongly encourage you to set up your account for IGTE'22 as soon as possible. Most of the coming e-Mails will be sent to registered users only.

For further details, please refer to the website or feel free to contact the organizers directly by e-Mail ([igtesymp@tugraz.at](mailto:igtesymp@tugraz.at)).

We are looking forward to meeting you in Graz in autumn 2022.

**Alice Reinbacher-Köstinger, Thomas Bauernfeind, Christian Magele**  
Chair IGTE'22
